

PLANTA*Vis*

HEALTHFOOD

PRODUCT CATALOGUE 2017/2018

Dietary supplements (valuable food concentrates), supplemental balanced diets and medical devices, raw materials from all over the world, developed by our nutrition scientists – for your healthy life style.

"YOUR HEALTH IS OUR MOTIVATION – THEREFORE THE BEST IS ONLY GOOD ENOUGH FOR US"

OUR CELL PROTECTION COMPLEX

Patent pending: the PlantaVis cell protection complex.

As a company that produces and develops innovative dietary supplements, we work closely with scientists from the fields of nutrition, epigenetics, nutrigenetics, medicine and pharmacy. We place great emphasis on cutting-edge research and integrate research findings into our daily work.

One important result of this is, that we are particularly proud of our new and exclusive cell protection complex, which is already patent pending in Germany.

Oxidative stress has become a problem in our modern society. Stresses at school, in everyday life and at work, as well as a lack of exercise leave their mark in our somatic cells. All in all, these factors can weaken the immune system, accelerate cell ageing and cause chronic inflammatory diseases and metabolic disorders.

A low intake of fruit, vegetables, herbs and mushrooms reduces the phytochemicals available to the body and provokes oxidative stress as well. Many of the phytochemicals that these natural products contain have scientifically proven antioxidant effects. Our micronized cell protection complex can help **resolve this modern form of malnutrition**. We use it in many of our latest products, labelled with our cell protection complex symbol. The following ingredients make our cell protection complex unique:

Camu Camu extract

Camu Camu grows in the western Amazon region. Its fruit contain up to 40 times more vitamin C than oranges. Phytochemicals can enhance the antioxidative, cytoprotective (cell protective) effects of vitamin C several times over in the body.

Melon extract

Melon extract is rich in superoxide dismutase; a group of enzymes that help convert highly reactive superoxide radicals into hydrogen peroxide.

Jiaogulan extract

Jiaogulan, in Chinese Xiancao (immortality), contains a strikingly high level of ginsenosides, a group of phytochemicals that also occurs in ginseng. The ginseng root used to be eaten precisely because of its invigorating effect.

Caper extract

Alongside flavonoid glycosides and rutin, capers contain a mustard oil glycoside. In folk medicine they were used to treat a number of illnesses including chronic inflammatory disease.

Shiitake

Just as Hippocrates in ancient times, the Chinese use food to target specific health disorders. Shiitake is included in the Chinese Pharmacopoeia due to its importance in fighting various ailments.

Our cell protection complex also includes Cordyceps powder, Astragaloside extract (1%), barley extract with 20-25% β -glucan, Chlorophyllin, black pepper extract and L-ascorbic acid.

Convince yourself and allow PlantaVis cell protection complex to strengthen your body cells!

OUR PHILOSOPHY

Welcome to PlantaVis!

According to the proverb, "You are what you eat." even during antiquity, Hippocrates, the famous doctor who lived from 460 BC until about 370 BC, taught "Let food be thy medicine and medicine be thy food." At PlantaVis, we are also convinced that a healthy, balanced diet, in conjunction with an active lifestyle is an essential aspect of ensuring good health and well-being long into old age.

However, our eating habits have changed dramatically since these insights first became known. Ready-made meals and pre-prepared ingredients have become common place in many households, canteens and even restaurants. These products are often 'empty' of nutrients and contain large amounts of carbohydrates; although they are filling, they are poor sources of micronutrients.

The effects that these foods have on our health are worsened by the fact that very few people regularly manage to eat the recommended five daily servings of fruit and vegetables. Today, most people base their diet on just 400 different foods; this contrasts strongly with our hunter-gatherer ancestors who used around 4,000.

At PlantaVis we feel very strongly about the environment and the rich range of natural ingredients that nature has to offer. Every time we enter our storage facilities, we feel like we are entering a vast treasure chamber and we quickly fall under the spell of the fascinating and enticing scent of herbs and spices from all around the world.

Our innovative products enable you to share in our enthusiasm for natural products. We only use the best natural raw materials to compose our unique dietary supplements, and we are particularly proud of our exclusive cell protection complex, which is why you'll find it in most of our products.

We do hope you'll welcome this opportunity to explore the enchanting world of PlantaVis.

Sincerely,
Your PlantaVis team

IMMUNE SYSTEM

A healthy immune system provides the best protection against organic causes of disease and numerous other substances that can adversely affect your health.

High-quality vitamins and minerals can intelligently support our body's normal functions and help to strengthen its natural defences.

Daily Plus capsules

Multi-vitamin mineral capsules

A dietary supplement in the form of multi-vitamin mineral capsules.

Ingredient	per daily dose (3 capsules)	RDA (%) *
Magnesium	118.57 mg	31.62 %
Calcium	120.12 mg	15.01 %
Iron	15.00 mg	107.14 %
Vitamin C	120.00 mg	150.00 %
Zinc	15.07 mg	150.67 %
Potassium	39.34 mg	1.96 %
Vitamin E	12.10 mg α-TE	100.80 %
Nicotinamide	15.00 mg	93.75 %
Pantothenic acid	9.04 mg	150.65 %
Manganese	3.00 mg	150.00 %
Copper	1.52 mg	152.70 %
Vitamin B12	3.75 µg	150.00 %

Vitamin B1	1.81 mg	164.59 %
Vitamin B6	2.09 mg	149.35 %
Vitamin B2	2.10 mg	150.00 %
Vitamin K1	45.00 µg	60.00 %
Folic acid	300.00 µg	150.00 %
Iodine	226.08 µg	150.72 %
Selenium	72.06 µg	131.01 %
Biotin	75.00 µg	150.00 %

Ingredients: Magnesium carbonate, calcium carbonate, hydroxy-propyl methylcellulose (capsule), ferrous gluconate, L-ascorbic acid, zinc gluconate, potassium chloride, DL-alpha-tocopheryl acetate, cell protection complex (camu camu extract containing 20% L-ascorbic acid1, L-ascorbic acid1, Jiaogulan extract, Cordyceps powder, shiitake powder, caper extract, Astragaloside extract (1%), **barley extract** with 20-25% β-glucan, chlorophyllin, melon extract (Extramel®), pepper extract containing 95% piperine), nicotinamide, calcium pantothenate, manganese sulphate monohydrate, copper sulphate pentahydrate, cyanocobalamin, cholecalciferol, pyridoxine hydrochloride, thiamin hydrochloride, riboflavin, phyloquinone, pteroylm-noglutamic acid, sodium iodide, sodium selenite pentahydrate, biotin.

Recommended dose: 3 capsules daily with plenty of liquid.

Content: 90 capsules · **Weight:** 46.5 g

Article number: 5111

Jiaogulan supports the activity of the lymphocytes, while the medicinal fungi Cordyceps and Shiitake are said to strengthen the immune system. Together with antioxidants, vitamins and minerals, the valuable ingredients of these capsules help to give your diet a daily boost.

High-quality vitamins and minerals can intelligently support our body's normal functions and help to strengthen its natural defences.

Vitamin D & K2 capsules

For the immune system

Vitamin D helps to keep the immune system working normally.

A dietary supplement in the form of vitamin D & K2 capsules

Ingredient	per daily dose (2 capsules)	RDA (%) *
Vitamin C	32.00 mg	40.00 %
Vitamin D	20.00 µg	400.00 %
Vitamin K2	150.00 µg	200.00 %

Ingredients: rice flour, hydroxypropyl methylcellulose (capsule), cell protection complex (camu camu extract containing 20% L-ascorbic acid¹, L-ascorbic acid¹, Jiaogulan extract, Cordyceps powder, shiitake powder, caper extract, Astragaloside IV (1%), **barley extract** with 20-25% β-glucan, chlorophyllin, melon extract (EXTRAMEL®), black pepper extract containing 95% piperine), menaquinone, medium-chain triglycerides, cholecalciferol.

Recommended dose: 2 capsules daily with plenty of liquid.

Content: 60 capsules · **Weight:** 29.8 g
Article number: 5116

Pro Immune capsules

For the spring

Selenium and zinc help to maintain the normal functions of the immune system.

Dietary supplements containing vitamins and minerals

Ingredient	per daily dose (2 capsules)	RDA (%) *
Calcium	240.24 mg	30.03 %
Magnesium	187.50 mg	50.00 %
Vitamin C	84.26 mg	105.33 %
Zinc	10.00 mg	100.00 %
Manganese	2.00 mg	100.00 %
Vitamin B6	1.40 mg	100.00 %
Selenium	55.00 µg	100.00 %

Ingredients: calcium carbonate, hydroxypropyl methylcellulose (capsule), magnesium oxide, elderberry extract, L-ascorbic acid, quercetin, grapefruit powder, stinging nettle powder, lemon juice powder, spinach powder, perilla powder, zinc chloride, Spirulina powder, linseed powder, black cumin powder, cell protection complex (camu camu extract containing 20% L-ascorbic acid¹, L-ascorbic acid¹, Jiaogulan extract, Cordyceps powder, shiitake powder, caper extract, Astragaloside IV (1%), **barley extract** with 20-25% β-glucan, chlorophyllin, melon extract (EXTRAMEL®), black pepper extract containing 95% piperine), manganese gluconate, broccoli powder, pyridoxine hydrochloride, sodium selenite pentahydrate.

Recommended dose: 2 capsules daily with plenty of liquid.

Content: 60 capsules · **Weight:** 51.8 g
Article number: 6112

Many people are affected by urinary tract or bladder infections. The proanthocyanidin found in cranberries uses its antibacterial and anti-inflammatory properties to help the body to fend off such infections.

Pomegranate and cranberry capsules

Do something good for your immune system

Vitamin C helps ensure a healthy immune system.

Dietary supplement with vitamin C

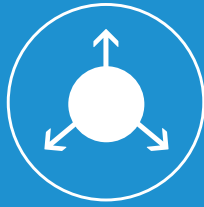

Ingredient	per daily dose (2 capsules)	RDA (%) *
Vitamin C	58.00 mg	72.50 %
Pomegranate extract	170.00 mg	
Cranberry extract	160.00 mg	

Ingredients: hydroxypropyl methylcellulose (capsule), 15.3% pomegranate extract, 14.4% cranberry extract, bearberry powder, cell protection complex (camu camu extract containing 20% L-ascorbic acid,¹ L-ascorbic acid, Jiaogulan extract, Cordyceps powder, shiitake powder, caper extract, Astragaloside extract (1%), **barley extract** with 20-25% β-glucan, chlorophyllin, melon extract [Extramel®], black pepper extract containing 95% piperine), rosehip powder, black radish powder, L-ascorbic acid, medium chain triglycerides, magnesium salts of fatty acids (separating agent), Geranium robertianum extract, Geranium maculatum extract.

Recommended dose: 2 capsules daily with plenty of liquid.

Content: 60 capsules · **Weight:** 33.3 g
Article number: 3485

Wild cranberries originally grew in the forests of North America but now tend to be found on huge plantations in the USA. The bright red berries were given their name by the first settlers in America, who decided to call them "crane-berries" because the petals of the plant resembled the bill of a crane.

DETOXIFICATION

A regular detox can help counter numerous health risks.

Our bodies regularly absorb small amounts of toxins. Luckily, many of these toxic substances are excreted before they can do any lasting damage. However, this is not always the case, and heavy metals such as lead, cadmium and mercury, among other toxins, tend to remain in the body. Sometimes these substances result from dental fillings but they are also often found in otherwise healthy foods such as fish, fruit and vegetables. Exposure to these contaminants increases the concentration of toxic substances in the body, which can lead to significant liver and kidney damage. It's clearly high time for a natural detox!

Why do parrots eat clay?

Quite a few types of animals eat clay on a regular basis, and this is also the case with parrots. Some parrots have even been seen using their sharp beaks to nibble away at rocks. These birds are searching for special minerals that naturally neutralize toxic substances.

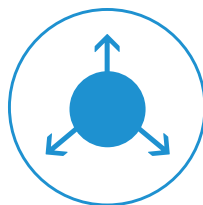

The porous labyrinth-like structure of clinoptilolite zeolite binds toxins.

Detox powder and capsules function in exactly the same way as the minerals consumed by animals. However, our detox powder and capsules are class IIa medical device! The key to the benefits that our detox treatments provide is found in the highly mineralised zeolite that they contain. Zeolite that is obtained from natural sources is known as clinoptilolite. The great advantage of clinoptilolite zeolite is that its particular structure enables it to bind heavy metals in the body, which can then be excreted naturally.

The mineral is extremely porous and traversed by numerous microchannels: seven grams of clinoptilolite zeolite has a surface area equivalent to that of a football field. This provides the mineral with an enormous capacity for ion exchange and enables its structure to absorb and bind toxins. This capacity is further enhanced by micronization – a special milling process that we use during the preparation of all of our detox products.

Indulge in a detox.

Our detox powder and capsules provide natural detoxification; moreover, clinoptilolite zeolite has no known side effects. The products are available in packs of 90 grams (or 144 capsules) or 180 grams (or 288 capsules), and last for a 12 or 24-day detox respectively. During the treatment, clinoptilolite can effectively bind heavy metals so that they can be excreted. We recommend combining our detox powder or capsules with our milk thistle capsules; however, these are also effective when taken by themselves. Milk thistle capsules contain our proven cell protection complex¹, which combines the effects of the South American camu camu, Jiaogulan from Asia, and powdered Cordyceps and shiitake mushrooms. Our detox powder and capsules are class IIa medical device and perfect for detoxification!

Our detox products can be used to significantly reduce the level of ammonium and heavy metals found in the body; in particular, this includes lead, cadmium and mercury. They can also help relieve the stress placed on liver, kidney, pancreas and blood metabolism.

Detox powder 12-day treatment

A class IIa medical device

Ingredients: micronized clinoptilolite zeolite. Detox powder is a class IIa medical device in powder form, consisting of 100% micronized clinoptilolite.

Dosage instructions: Stir 1-2 measuring spoons (1.25–2.5g) of detox powder into water (200ml) 3 times a day and drink 30 minutes before each main meal. We recommend taking 1 measuring spoon 3 times a day as a preventive measure or 2 measuring spoons three times a day as a treatment.

Content: 90 g
Article number: 1182

Detox powder 24-day treatment

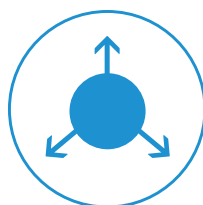

A class IIa medical device

Ingredients: micronized clinoptilolite zeolite. Detox powder is a class IIa medical device in powder form, consisting of 100% micronized clinoptilolite.

Dosage instructions: Stir 1-2 measuring spoons (1.25–2.5g) of detox powder into water (200ml) 3 times a day and drink 30 minutes before each main meal. We recommend taking 1 measuring spoon 3 times a day as a preventive measure or 2 measuring spoons three times a day as a treatment.

Content: 180 g
Article number: 1183

Our detox products can be used to significantly reduce the level of ammonium and heavy metals found in the body; in particular, this includes lead, cadmium and mercury. They can also help relieve the stress placed on liver, kidney, pancreas and blood metabolism.

Detox capsules 12-day treatment

A class IIa medical device

Ingredients: 624mg of micronized clinoptilolite zeolite.
Auxiliary agents to aid machine packaging in capsules:
155mg of sodium hydrogen bicarbonate, 24mg of water,
6mg of magnesium stearate. Cellulose capsule (hydroxy-
propyl methylcellulose) 120mg.

Dosage instructions: Take 2–4 detox capsules with plenty of water (at least 200ml) 3 times a day, 30 minutes before each main meal. We recommend taking 2 capsules 3 times a day as a preventive measure or 4 capsules 3 times a day as a treatment.

Content: 144 capsules · **Weight:** 133 g
Article number: 1083

Article number: 1084

Regular detoxification can prevent numerous health risks.

Milk thistle capsules

Good for a healthy liver

Choline helps maintain a healthy liver.

Dietary supplement containing choline

Ingredient	per daily dose (2 capsules)	RDA (%) *
Vitamin C	80.00 mg	100.00 %
Vitamin E	3.36 mg α-TE	28.00 %
Choline	48.69 mg	

Ingredients: milk thistle, hydroxypropyl methylcellulose (capsule), cell protection complex (camu camu extract containing 20% L-ascorbic acid, 1 L-ascorbic acid, Jiaogulan extract, Cordyceps powder, shiitake powder, caper extract, Astragaloside extract (1%), **barley extract** with 20-25% β-glucan, chlorophyllin, melon extract [Extramel®], black pepper extract containing 95% piperine), Burma Spirulina powder, choline bitartrate, L-ascorbic acid, curcuma extract 95% curcuminoids, dandelion extract 10:1, DL-alpha-tocopheryl acetate, medium-chain triglycerides, magnesium salts of fatty acids (separating agent), lapacho tea extract.

Recommended dose: 2 capsules daily with plenty of liquid.

Content: 60 capsules · Weight: 36.0 g
Article number: 2074

Pharmacist's herbal bitters capsules

Dietary supplement

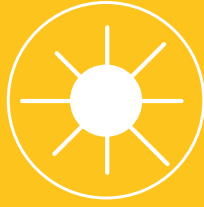

Ingredient	per daily dose (2 capsules)	RDA (%) *
Naringin	39.60 mg	
Cynarine	1.00 mg	
Caffeine	4.00 mg	

Ingredients: hydroxypropyl methylcellulose (capsule). Olive leaf extract (20% oleuropein), mate extract (5% **caffeine**), Tribulus extract (40% saponins), broccoli powder, gentian root powder, yarrow powder, angelica root powder, grapefruit extract (99% naringin), yellow **mustard seed** powder, dandelion root powder, artichoke extract (2.5% cynarine), hops powder, horseradish, thyme powder, coriander, aniseed powder, fennel powder, rosemary powder, black pepper extract (95% piperine).

Recommended dose: 2 capsules daily with plenty of liquid.

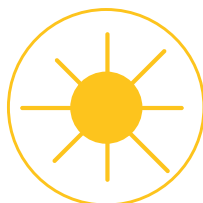

Contains caffeine. Not recommended for children or during pregnancy.

Content: 60 capsules · Weight: 31.1 g
Article number: 4285

BEAUTY

Each epoch has its own ideas of what constitutes beauty,
and we encounter them in the fine arts such as painting,
sculpture, architecture and music.

Beauty comes from within! Although this view from popular wisdom mainly applies to inner values, it is clear that the things we eat can have an effect on our hair, skin, connective tissue and veins.

Apricot capsules

In the sun

Zinc and selenium help protect the cells from oxidative stress.

Dietary supplements containing vitamins and minerals

Ingredient	per daily dose (2 capsules)	RDA (%) *
Zinc	10.00 mg	100.02 %
Vitamin A	784.00 µg RE	98.00 %

VITALITY

Treating vitality simply as survival, hardly does the matter justice. Nobody merely wants to survive! We all want to welcome each new day with drive and enjoy our lives to the full.

Vitality is the term used to refer to physical, mental, emotional and social aspects of a person's well-being. Natural healing ingredients can have positive influence on all of these aspects in a wide variety of different ways.

Elderberry capsules

Do something good for your eyes

Vitamin A and vitamin B2 help ensure good vision.

Dietary supplement with vitamins

Recommended dose: 2 capsules daily with plenty of liquid in the morning before breakfast.

Size: 60 capsules · weight: 34.5g
Set article number: 7112

A Class IIa medical device

For increasing your feeling of satiety and thus reducing your appetite as a form of supportive treatment of excess weight and weight control.

Ingredients: One satiety capsule contains 400 mg blond psyllium husk powder, sodium bicarbonate and magnesium stearate. The capsule shell is made of hydroxypropyl methylcellulose.

Appetite suppressant capsules for the effective treatment of excess weight and efficient weight control as part of a diet plan. Contain a virtually zero-calorie, finely ground vegetable-based bulking agent: blond psyllium in the stomach and swell to form a soft gelatinous mass. The increased swelling of the stomach content leads to a quicker feeling of satiety when eating, thus making it easier to eat less. This in turn reduces calorie intake and makes it easier to persevere with dieting measures.

Dosage instructions: 3–5 capsules with plenty of water 30 minutes before your main meal. As part of a 30-day treatment. Please stop taking the capsules for 3 days before starting a new treatment.

Size: 120 capsules · weight: 72.1g

Ingredients: hydroxypropyl methylcellulose (capsule), Cordyceps powder, Elymus root extract, blueberry powder, shaggy ink cap powder, guar gum powder, kidney bean extract, cell protection complex (camu camu extract containing 20% L-ascorbic acid¹, L-ascorbic acid¹, Jiaogulan extract, Cordyceps powder, shiitake powder, caper extract, Astragaloside IV (1%), **barley extract** with 20-25% β-glucan, chlorophyllin, melon extract (EXTRA-MEL®), black pepper extract containing 95% piperine), chromium picolinate.

Recommended dose: 3 capsules daily with plenty of liquid.

Content: 90 capsules · **Weight:** 50.9 g
Article number: 4206

Type 2 diabetes is one of a number of modern widespread diseases and often accompanies obesity. Type 2 diabetes forms metabolic syndrome together with other risk factors.

Satiety capsules for diabetics

A class IIa medical device

Made from the husks of Indian Psyllium (*Plantago ovata* Forssk).

Satiety capsules can be used to treat obesity and in weight control as part of a properly planned diet. They are virtually calorie-free, and are made of the husks of finely ground Indian Psyllium (*Plantago ovata* Forssk), a natural plant-based bulking agent.

Ingredients: one satiety capsule contains 400mg of Indian Psyllium husk powder as well as potassium hydrogen carbonate and magnesium stearate. The capsules are made from hydroxypropyl methylcellulose.

Dosage instructions: Take 3–5 capsules with plenty of liquid 30 minutes before your main meal. As part of a 30-day treatment. Please stop taking the capsules for 3 days before starting a new treatment.

Content: 120 capsules · Weight: 74.5 g
Article number: 1400

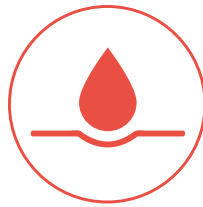

Satiety capsules for diabetics contain Psyllium polysaccharides, a type of fibre that acts as an extremely receptive sponge.

SKIN CARE & TESTS

External factors can bring our skin and our body out of balance.
Protect your skin and learn how to better understand the signs
shown by your body.

Injuries to the skin can often be painful, even if they are only superficial. When injured, our skin needs special care and attention.

ProSkin skin and wound powder

A Class 1 medical device

Ingredients: 100% natural zeolite (clinoptilolite)

For supporting the healing of wounds in the case of superficial skin lesions such as grazes, skin irritations, decubitus ulcers, post-operative wounds, burns and herpes blisters.

Unless otherwise prescribed, apply to the injured areas of skin several times a day as and when required.

Content: 60 g
Article number: 1185

StressTest (BioMonitor by PlantaVis)

A rapid urine test to determine oxidative stress caused by free radicals

The BioMonitor StressTest is used to determine levels of malondialdehyde, known as MDA for short: a substance that normally cannot be found or can only be found in very small concentrations in urine. MDA is considered to be one of the key markers for oxidative stress. Oxidative stress is caused by an increased concentration of free radicals over a long period of time.

Content:

- 1 set of instructions on conducting the test and evaluating the results
- 2 urine cups
- 2 resealable bags with a pipette and a test container with the test reagent

Quantity: 2 tests
Article number: 5115

MADE IN GERMANY

Certified quality based on local products

Our production processes are exclusively conducted according to stringent German standards, with standardised processes ensuring accurate, reliable dosages.

We guarantee our customers that our precisely-dosed preparations reflect the latest scientific research, in order to maintain and improve your wellbeing.

PlantaVis GmbH relies exclusively on extracts that truly meet our rigorous standards. The micronutrients – vitamins, minerals and trace elements – as well as the phytochemicals we use in our preparations are predominantly made from natural sources and guarantee verifiable pure quality.

Our ISO 9001:2000 certification guarantees our customers a consistently high quality within our manufacturing processes.

Preparations tailored to your needs – produced in domestic facilities – even in small quantities.

PlantaVis team welcomes the growing awareness among consumers about the ‘chemicalisation’ of health and well-being. Our company seeks to tread more natural paths, and to do so together with our customers. As such, we make every effort to meet individual needs. All of our dietary supplements are produced in our own facilities. Therefore we are able to tailor our preparations to individual requirements and to produce even small quantities while still ensuring very good value for money.

We are a member of the NEM – the Association of Medium-Sized European Manufacturers and Distributors of Dietary Supplements and Health Products.

RDA (%):

reference amount for average adults in accordance with European regulation 1169/2011

Storage:

Our products need to be stored away from light, in a dry place that is out of the reach of children. Nutritional values are subject to natural fluctuations.

Please note:

The stated recommended daily dosage must not be exceeded. Food supplements should not be used as a substitute for a balanced, varied diet and a healthy lifestyle.

Despite careful production, we cannot accept responsibility for errors or omissions. Subject to change. All information in this catalogue is assumed to have been correct at the time of printing and becomes out of date when the next catalogue is made available.

PLANTA^{VIS} MONOFOOD

SUPERFOODS FOR HEALTHY PLEASURE

Give a try on our PlantaVis MonoFood assortment – Monotony is a thing of the past!

Superfood and Clean Eating are two food trends, representing pure foods, free of any additives and rich in valuable ingredients.

Our MonoFood assortment contains both food trends. Fruits and pulses, vegetables and grasses, proteins and seeds as well as medicinal fungus are containing high-quality ingredients. They were processed in its pure form - as MonoFoods – into powder by maintaining their nutritional value. It is easy to handle and adds variety to your meals – prepared as a smoothie, sprinkled over meals or consumed as a drink in-between. This allows you to consume superfoods all year round, regardless of the season.
